

INSPIRED WIRELESS™

A AIRDESK®

“AIRDESK’s hands-on approach to providing the right guidance and right technology is unsurpassed.”

Tom Positano, ADT

INSPIRED WIRELESS™

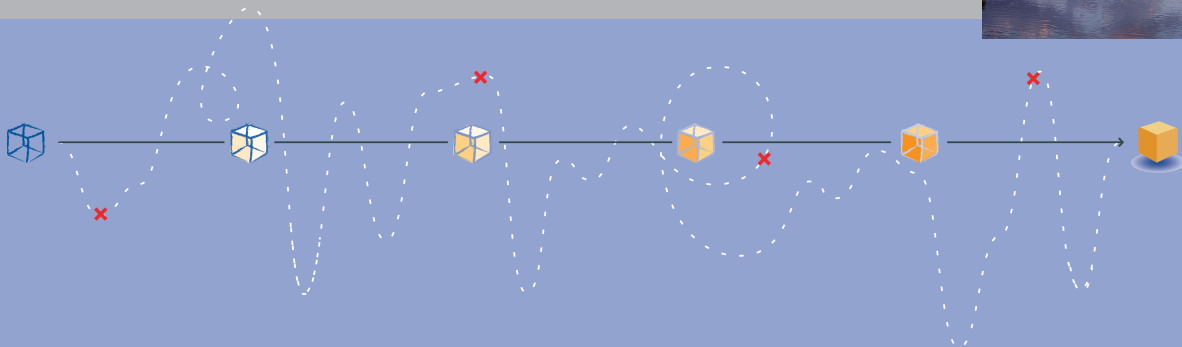

Moving your M2M idea from inspiration to implementation is what AIRDESK is all about. We understand that M2M implementations can be complex. We also understand that the benefits can far outweigh the complexities.

As wireless data communications capabilities expand, AIRDESK is the one partner you can count on to help you make the most of what wireless communications has to offer. Whether it's helping you identify the best application of wireless communications technology to a business problem or navigating the often complex certification process, AIRDESK has the expertise and experience that you need to bring your wireless ideas to reality.

With more than 12 years of wireless data communications experience and an AirAlliance™ Partner Network of more than 25 industry leaders, AIRDESK knows how to simplify the complexities of M2M integrations and make it easy for you to experience the benefits. AirAlliance Partner Network members come together to deliver comprehensive end solutions for customers in a number of industry verticals including fleet and asset management, utilities, security, vending, healthcare and financial services.

As the industry's leader in end-to-end M2M solutions, no other company brings together the same combination of services, support and technology for its clients as AIRDESK. We're here to make your wireless dreams a reality.

Go ahead, get inspired.

Professional Services

AIRDESK's professional services team is focused on our clients' success through every aspect of their M2M implementation. We provide expert integration, certification and regulatory support to help ensure that your M2M implementation is successful. Led by industry experts, our professional services are designed to ease the complexity of M2M and promote rapid and efficient deployments.

In addition, AIRDESK offers customers access to our AirSource™ database – the largest online repository of wireless data communications and M2M information available anywhere. Through our AirSource database, you have access to the details and specifications of thousands of wireless data communications technologies from leading industry vendors. More importantly, through our integrations services packages, you have the expert advice and counsel you need to make the right choices.

As an AIRDESK client or partner, you'll also have access to our AirAlliance™ Partner Network of more than 25 industry leaders. Through the AirAlliance Partner Network, you'll have access to the right solutions to support your wireless data communications needs no matter what your industry.

Join the thousands of customers who have relied on AIRDESK to help them make their wireless data communications inspirations a reality.

Technology

AIRDESK offers the most extensive selection of best-of-breed wireless data communications hardware available anywhere. Our extensive selection of hardware from leading industry vendors from around the world ensures that you get the best technology for your project at the best possible price.

"AIRDESK has been an extremely valuable facet of our wireless data implementation. They have been critical in helping us reach new levels of success."

Steve Emerson, CardioNet

Whether you are looking for a replacement to CDPD, or a GSM- or CDMA-enabled modem, AIRDESK has the right solution to meet your needs. We offer a full range of data module and components, as well as an extensive list of small form factor devices (SFFDs). As an industry leader in wireless communications solutions, we are proud to associate ourselves with the following industry leaders:

- Wavecom
- Nokia
- Motorola
- Enfora
- Kyocera
- Sony Ericsson
- Sierra Wireless

Activation Services

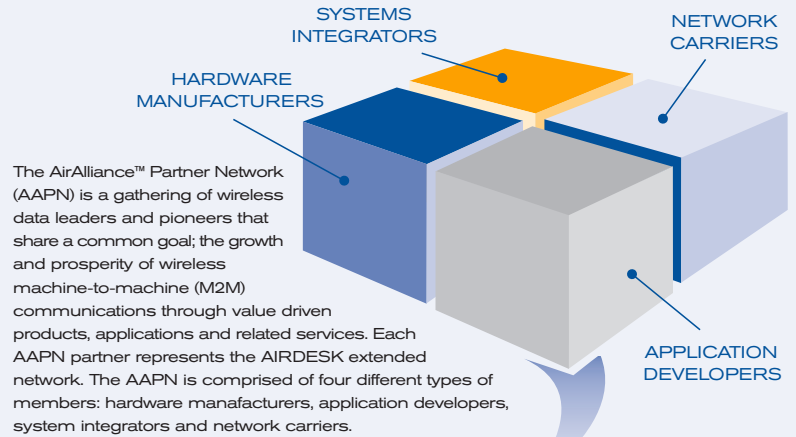

AIRDESK offers activation services and access to special wireless data communications pricing, saving you time and money. A trusted partner, we take the time necessary to understand your business requirements and provide flexible service offerings to facilitate your sales with activations services.

Our activation and airtime services and special rates are made possible through our unique relationships with Verizon Wireless and T-Mobile. Through these relationships, AIRDESK is able to offer its customers the most competitive rates, without sacrificing quality.

AIRDESK Activation Services benefit hardware vendors by:

- Streamlining your sales process — AIRDESK serves as an activations referral resource.
- Serving as an agile national sales force extension capable of designing solutions that can accommodate a variety of your customers' deployment schedules.
- Being an active partner who understands the complexities of the M2M marketplace.

AirAlliance™ Partner Network

The optimum solution is delivered through the AirAlliance Partner Network no matter what your industry.

AIRDESK is the leading provider of best-of-breed wireless data solutions and services. Specializing in machine-to-machine (M2M) communications, AIRDESK eases the complexity of wireless data implementations for customers seeking rapid and efficient M2M deployments.
